Complaint of Mexican General Is Followed by Withdrawal of U. S. Soldiers.

United States army provost guards have been withdrawn from the international bridges between El Paso and Jeares, by orders from Gen. John J. Pershing, following the complaint delivated to him by Gen. Gabriel Gavira, of the Joares garrison, in the matter of the alleged shooting of a Mcalan Saturday afternoon "by an American solution."

Custams Men to Ask Return.

Customs Men to ask Return,
Customs officers are without the assistance of the military in handling the
growing going and coming between El
Pass and juares, and a request to have
the soldiery again represented there,
will protably be considered by the custions authorities here.

In the making of representations to
Gen, Pershing on the alleged shooting
of a Mexican, said to be maned Alejandro Soto, by United States soliders,
who fired, the complaint says, "12 shots
at him" on Saturday, it is believed by
close observers of the international
situation here, arising over the murder of Bert Akers at San Lorenzo Friday afternoon, that the Mexican authorities have scored a point in diplomacy at this point on the border, for
use in future matters of a controversial
nature.

nature.

Gives Mexicans Advantage.

It is pointed out that the United States authorities practically pushed the matter of having the Duran brothers punished for the crime of killing an american Akers and that the Mexican authorities accepted all claims by the United States officially, without demur or delay, and that even the bodies of the two Durans were exhumed for a second identification by three officials of the United States Envernment.

Now it is pointed out, the United States has received a complaint from the Mexican authorities of the shooting of a "Mexican eivilian," which will receive an investigation which consumes time. This leaves the way open, it is claimed, for delay whenever the Mexican authorities are approached in the near future by United States officials on similar matters.

REPORT 3000 CASES OF TYPHUS IN MEXICO CITY

TYPHUS IN MEXICO CITY

Advices Monday night to the Mexican consulate in El Paso, under date of January 21, reported 2000 cases of typhus in Mexico City, including 700 additional cases listed for the past week, which showed a falling off of 200 from the additional cases turned in the previous week. The mortality rate in Mexico City was reported as decreased from 19 percent to 15 percent of the total number of cases. Travelers from Guadalajara and Aguascalentes, who arrived in Mexico City, reported there that no epidemic of typhus was evident in those centers.

Gen. Pablo Gonzalez, commander of the Constitutionalist army of the east, was said to have arrived back in Mexico City from his conference with first chief Venustiano Carranza at Queretario.

mating Influences."

Washington, D. C., Jan. 25.—Gen. Carranza who is angry at Mexico City for a variety of reasons, has announced that he is unwilling to take his cabine; to the capital during the period of reorganization, in order that the government may not be subject to the "contaminating influences" of professional politicians and capitalists, native and foreign.

It is believed Gen. Carranza will maintain his capital at some comparatively obscure place nutil after members of congress have been elected and have begun their sessions. The presidential election will not take place until after the congressions election.

Neither the state department her the Mexican embalsy has received confirmation of reports that Gen. Carranza will establish his capital at Dolores Hidalgo, and officials express doubt that the little town of 5000 will be the place selected. At the embassy it is thought probable the government will remain at Queretare for some time.

Carranza towards Mexico City, having declared publicly that the residents of the city should be punished for failure to support the revolution more entrestly. He and his adherents restard the capital as the home of clentificos," and believe the political atmosphere too reactionary for reorganization of the government.

## What Is Uric Acid?

THE CAUSE OF BACKACHE. RHEUMATISM, GRAVEL AND SUDDEN DEATH.

Ever since the discovery of uric soid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its oversbundance in the system it causes backache, pains here and there, theumatism, yout, gravel, neuralpie and backache, pains here and there, rheu-matism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who dis-covered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the sys-tem. "Anuric" has proved to be 37 times more potent than lithin, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. acid within the body. Send to Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," or send 10 cents

pamphiet on "Anuric," or send 10 cents for a trial package of "Anuric Tablets."

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best drug store and ask for Doctor Pierce's Anuric Tablets.

Doctor Pierce's reputation is back of this medicine and you know that his "Golden Medical Discovery" for the bloed and his "Favorite Prescription" for the ills of women have had a splen-did reputation for the past fifty years.

Austin, Texas, Jan. 25.—Governor Ferguson today issued a proclamation designating Thursday, January 27 as Jewish Relief day in Texas. This was done at the request of the central Pre-ish relief committee of New York City.

The governor endorses the work undertaken by lewish people in this country in affording relief to 5,000,000 lewish war sufferers in Europe and financial cooperation and moral support to the cause.

National in Scope.

The movement for Jewish relief in Europe is national in scope and special days are set aside in each state for the purpose of pushing the relief work.

CUBANS SEIZE CASTILLO AND MAY DEPORT HIM

Havana, Culm, Jan. 25.—Maximo Cus-tille. Former Mexican revolutionary, is under detention here and may be de-ported. He was taken into rustidy upon his arrival Menday from New Or-teans on the steamship Excelsior. The case is being investigated.

Maximo Castillo, who had been accused in affidavits in connection with the firing of the Cumbre tinnish near Canas Grandes, Mexico, on February 4, 1914, and who was inder arrest in El Pasc, charged with having violated the tomigration laws, was freed by the federal authorities on January 14, and given permission to go to Cuba. It was leared that if Castillo were deported to Mexico he would be executed by agents of Villa or Carransa. The affidavita churging Castillo with responsibility for the tinnel fire, in which 2f Americans lost their lives, were made by American railroad men. Federal authorities, however, held that the affidavits were insufficient evidence, and merely charged Castillo with having violated immigration laws.

Washington, D. C., Jan. 25.—The cabinet, today discussing the preparedness speeches president Wilson will make on his trp, agreed he should treat the quention with the greatest frankness and tell the country the United States needs a large army and may because of the present troubled conditions in the world.

The president will speak in the New York Thursday night before the Motion Pleture heard of trade.

"Trading With the Enemy" Regulation Considered Unfair to Neutrals.

Unfair to Neutrals.

Washington, D. C., Jan. 25.—The United States has forwarded to ambassador Page at London a protest against the enforcement of Great Britain's "trading with the enemy" act on the ground that it constitutes a grave injustice to neutral gommerce.

The "trading with the enemy" act wrothly the persons resident in Great Britain from trading with any corporations or individuals who are engaged in supplying the Tentonic allies, or have any bosiness dealings with them. The position of the United States is that, aside from a lack of legal authority for the proposed interference with trade, the relations of American and German capital with American magnifications in difference with trade, the relations of American and German capital with American magnifications industries are such that it would be quite impossible successfully to aim a blow at Germany without doing great damage to interests in this country.

Counter Act Enfair.

The representations will serve the purpose of warning Great Britain that the action is regarded as betog wholly unfair and that proper compensation will be expected for any injury sustained by American war. In addition, Great Britain itself has made objections to attempts to injure the trade of an enemy at the appears of a neutral.

Product in Neutral Country Neutral.

In a broad scope, the United States complishers that the product of the citizen or subject of a belligreent state.

Preduct in Neutral Country Neutral.

In a broad sense, the United States considers that the product of the citizen or subject of a Beiligerent state living in a neutral state must be respanded as being neutral. In this instance, the output of a German factory owned in the United States, or even a German controlled corporation is to be regarded as having the same status as the product of an American establishment.

This is held to be an inalignable right under well established principles of international law, decisions of the United States supreme court and of high loint commissions which had adjusted claims growing out of various wars in the past.

The course the United States will pursue was dotermined upon immediately after the receipt of the text of the art, ling week. It was forwarded to ambarsander page.
